

DATA SHEET:

Flat Plate 13A switched spur

Fused spur units or connection units are an electrical switch with a built in fuse, designed for appliances that do not have or require a fused plug top. Fused spur units are also used for high powered electrical equipment with heavy continuous load, so that the appliance can be isolated by a single cable from a ring main for safety and maintenance purposes. 13A rated available with and without a double pole switch, neon and flex outlet.
